CONTENTS
for Volume 211

No. 1: August 2006

RESEARCH NOTE

Kimbell, Jennifer R., Tanya A. Koropatnick, and Margaret J. McFall-Ngai
Evidence for the participation of the proteasome in symbiont-induced tissue morphogenesis 1

SYMBIOSIS AND PARASITOLOGY

Goodson, Michael S., Wendy J. Crookes-Goodson, Jennifer R. Kimbell, and Margaret J. McFall-Ngai
Characterization and role of p53 family members in the symbiont-induced morphogenesis of the *Euprymna scolopes* light organ 7

deBoer, Melissa L., Dave A. Krupp, and Virginia M. Weis
Two atypical carbonic anhydrase homologs from the planula larva of the scleractinian coral *Fungia scutaria* 18

NEUROBIOLOGY AND BEHAVIOR

Krichmar, Jeffrey L., David Velasquez, and Giorgio A. Ascoli
Effects of β-catenin on dendritic morphology and simulated firing patterns in cultured hippocampal neurons 31

PHYSIOLOGY AND BIOMECHANICS

Scholnick, David A., Karen G. Burnett, and Louis E. Burnett
Impact of exposure to bacteria on metabolism in the penaeid shrimp *Litopenaeus vannemei* 44

Burnett, Louis E., Jeremy D. Holman, Darwin D. Jorgensen, Jennifer L. Ikerd, and Karen G. Burnett
Immune defense reduces respiratory fitness in *Callinectes sapidus*, the Atlantic blue crab 50

Lovett, Donald L., Michael P. Verzi, Joseph E. Burgents, Christopher A. Tanner, Krzysztof Glomski, Joan J. Lee, and David W. Towle
Expression profiles of Na^+,K^+-ATPase during acute and chronic hypo-osmotic stress in the blue crab *Callinectes sapidus* 58

Byrne, R. A., and T. H. Dietz
Ionic and acid-base consequences of exposure to increased salinity in the zebra mussel, *Dreissena polymorpha* 66

von Dassow, Michelangelo
Function-dependent development in a colonial animal 76

ECOLOGY AND EVOLUTION

Wulff, Janie L.
Sponge systematics by starfish: Predators distinguish cryptic sympatric species of Caribbean fire sponges, *Tedania ignis* and *Tedania klausi* n. sp. (Demospongiae, Poecilosclerida) 83

No. 2: October 2006

RESEARCH NOTE

Byrne, Maria, Mary A. Sewell, Paulina Selvakumaraswamy, and Thomas A. A. Prowse
The larval apical organ in the holothuroid *Chiridota gigas* (Apodida): inferences on evolution of the ambulacrarian larval nervous system 95

Wyeth, Russell C., and A. O. Dennis Willows
Adaptation of underwater video for near-substratum current measurement 101

NEUROBIOLOGY AND BEHAVIOR

Butler, Ann B., and Rodney M. J. Cotterill
Mammalian and avian neuroanatomy and the question of consciousness in birds 106

Horner, Amy J., Scott P. Nickles, Marc J. Weissburg, and Charles D. Derby
Source and specificity of chemical cues mediating shelter preference of Caribbean spiny lobsters (*Panulirus argus*) 128

Cohen, Jonathan H., and Tamara M. Frank
Visual physiology of the Antarctic amphipod *Abyssorchomene plebs* 140

ECOLOGY AND EVOLUTION

Signorovitch, Ana Y., Stephen L. Dellaporta, and Leo W. Buss
Caribbean placozoan phylogeography 149

CELL BIOLOGY

Leys, Sally P., and Dafne I. Eerkes-Medrano
Feeding in a calcarous sponge: particle uptake by pseudopodia 157

DEVELOPMENT AND REPRODUCTION

Haesaerts, Delphine, Michel Jangoux, and Patrick Flammang
Adaptations to benthic development: functional morphology of the attachment complex of the brachiolaria larva in the sea star *Asterina gibbosa* 172
Yajima, Mamiko, and Masato Kiyomoto
Study of larval and adult skeletogenic cells in developing sea urchin larvae 183

PHYSIOLOGY AND BIOMECHANICS

Tentori, E., and D. Allemand
Light-enhanced calcification and dark decalcification in isolates of the soft coral *Cladiella* sp. during tissue recovery 193

No. 3: December 2006

EDITORIAL

Olds, James L.
A special role for marine biology 203

RESEARCH NOTE

Falkner, Inke, Maria Byrne, and Mary A. Sewell
Maternal provisioning in *Ophionereis fasciata* and *O. schayeri:* brittle stars with contrasting modes of development 204
Hens, Mark D., Kenneth A. Fowler, and Esther M. Leise
Induction of metamorphosis decreases nitric oxide synthase gene expression in larvae of the marine mollusc *Ilyanassa obsoleta* (Say) 208

NEUROBIOLOGY AND BEHAVIOR

Gutfreund, Yoram, Henry Matzner, Tamar Flash, and Binyamin Hochner
Patterns of motor activity in the isolated nerve cord of the octopus arm 212
Espinoza, Sandra Y., Lana Breen, Nisha Varghese, and Zen Faulkes
Loss of escape-related giant neurons in a spiny lobster, *Panulirus argus* 223
Croll, Roger P.
Development of embryonic and larval cells containing serotonin, catecholamines, and FMRFamide-related peptides in the gastropod mollusc *Phestilla sibogae* 232

ECOLOGY AND EVOLUTION

Harley, C. D. G., M. S. Pankey, J. P. Wares, R. K. Grosberg, and M. J. Wonham
Color polymorphism and genetic structure in the sea star *Pisaster ochraceus* 248

PHYSIOLOGY AND BIOMECHANICS

Brazee, Shanna L., and Emily Carrington
Interspecific comparison of the mechanical properties of mussel byssus 263

CELL BIOLOGY

Martin, Gary G., Rebecca Simcox, Aivan Nguyen, and Amaiak Chilingaryan
Peritrophic membrane of the penaeid shrimp *Sicyonia ingentis:* structure, formation, and permeability 275

DEVELOPMENT AND REPRODUCTION

Huertas, Mar and Joan Cerdà
Stocking density at early developmental stages affects growth and sex ratio in the European eel (*Anguilla anguilla*) 286
